## Lambeth LTN watch Disability & Sen

It's Disability History Month from the 16th, and we have just created a peer support group for those with disabilities, special educational needs (SEN) and their carers. It's a sad fact that that as a group, those with disabilities and SEN are more likely to be disproportionately disadvantaged by the LTNs. We feel that Lambeth has failed to come up with adequate mitigations to redress the balance and aim as a group to challenge this.

The group is intended to provide a safe space, where its members can support each other. Where needed, members can be signposted to appropriate organisations for additional assistance
